

PROJECT
STARSHIP

Team 12

Isabelle Ryan Ethan Zack

Giving new purpose

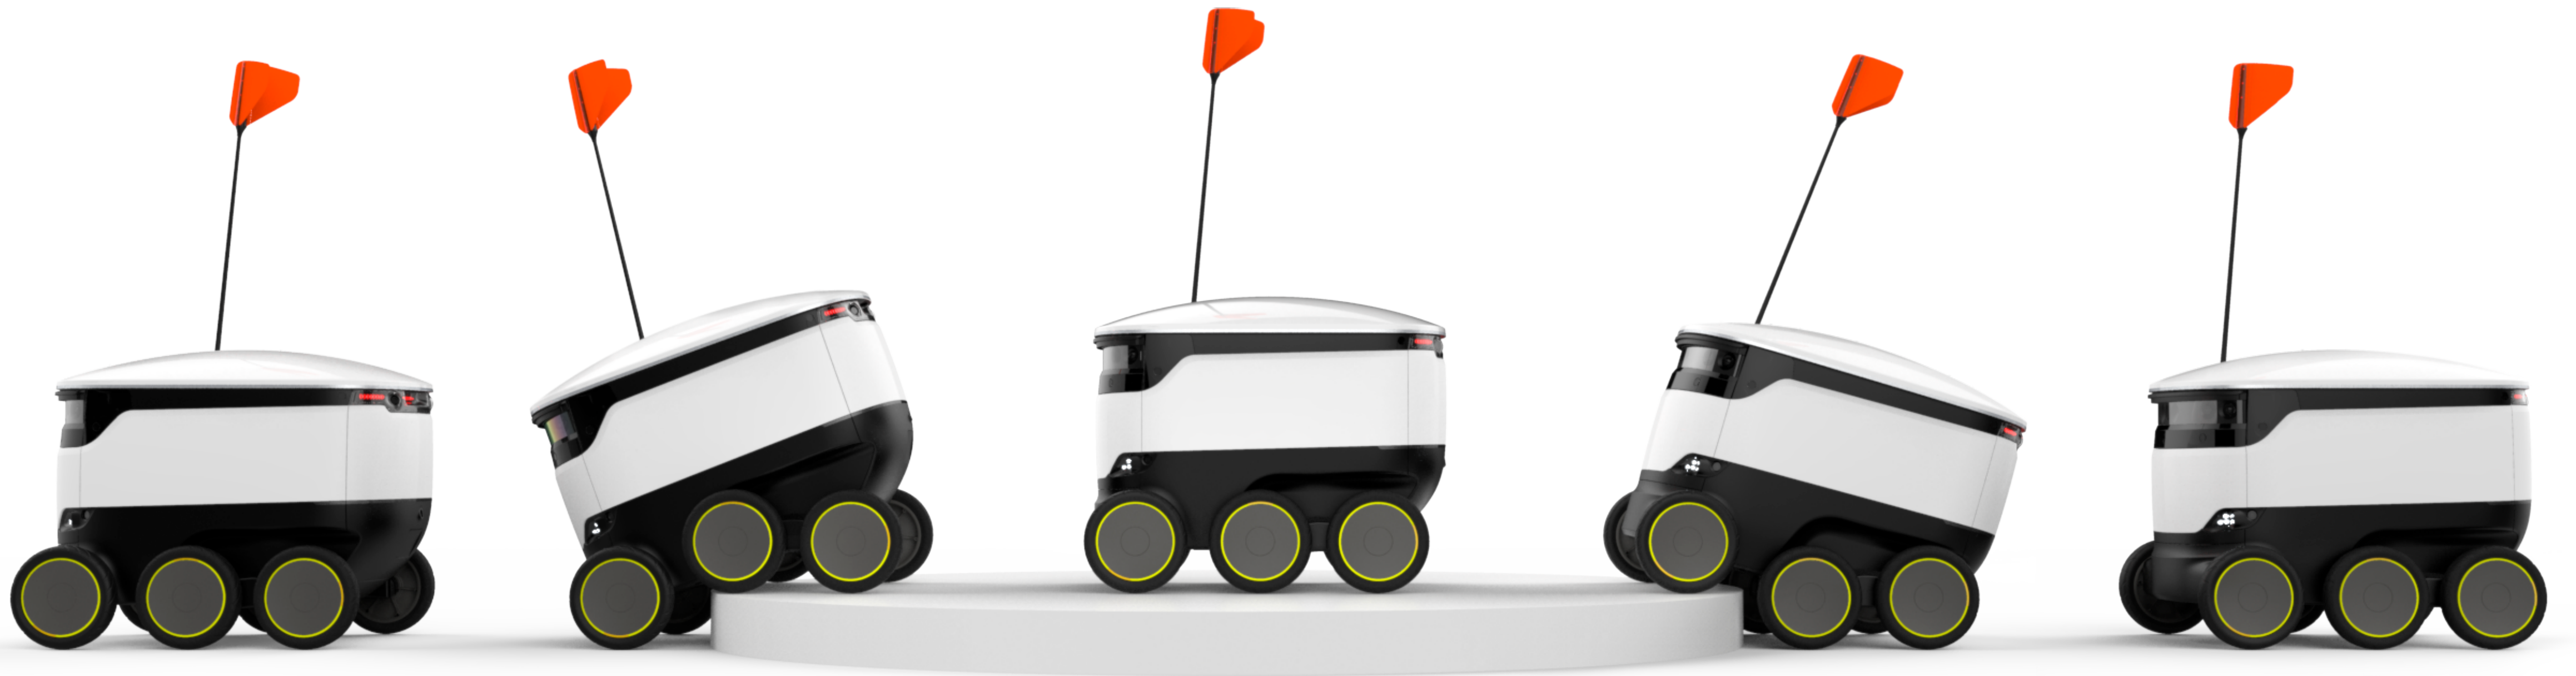

To Starship

Food Delivery

Better priced compared to Uber Eats

How can the Starship

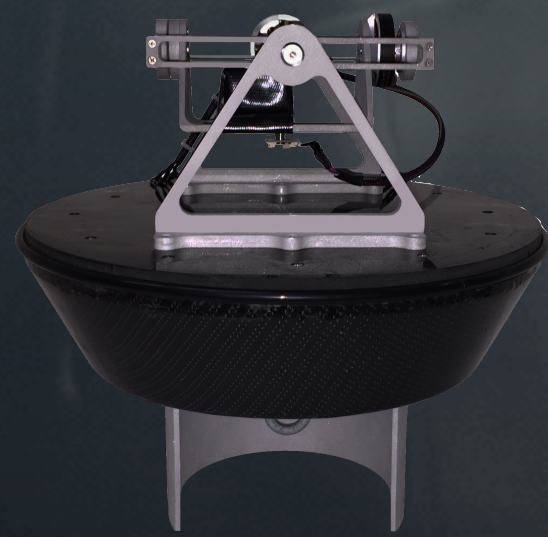

further enrich people's lives?

Students often forget to bring rain gear

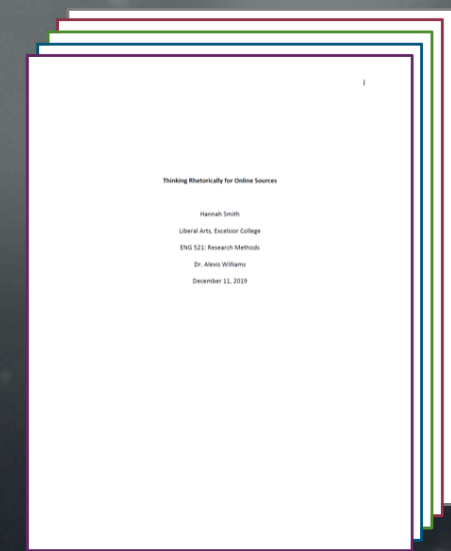

Items at risk

School Projects

Personal Electronics

Essays, Documentation

Is there a way to provide umbrellas and rain gear to students in a fast and efficient way?

STARSHIP gear

Order through the app

**Delivers to your location
both set or current**

**Drop off zones
across campus**

Rental Model

Umbrellas

Rain Covers

A compact, white, dome-shaped robot with a black base. The robot has a black sensor array on its front face, featuring two cameras and a central strip of green LEDs. The top of the robot is a white, dome-shaped lid that is slightly ajar. The robot is positioned against a white background.

**Compact and Lightweight
allows for more gear per robot**

Human to Human Interaction

Implement a system that promotes people
to interact by transferring umbrellas.

Interacting with others

Notify others nearby

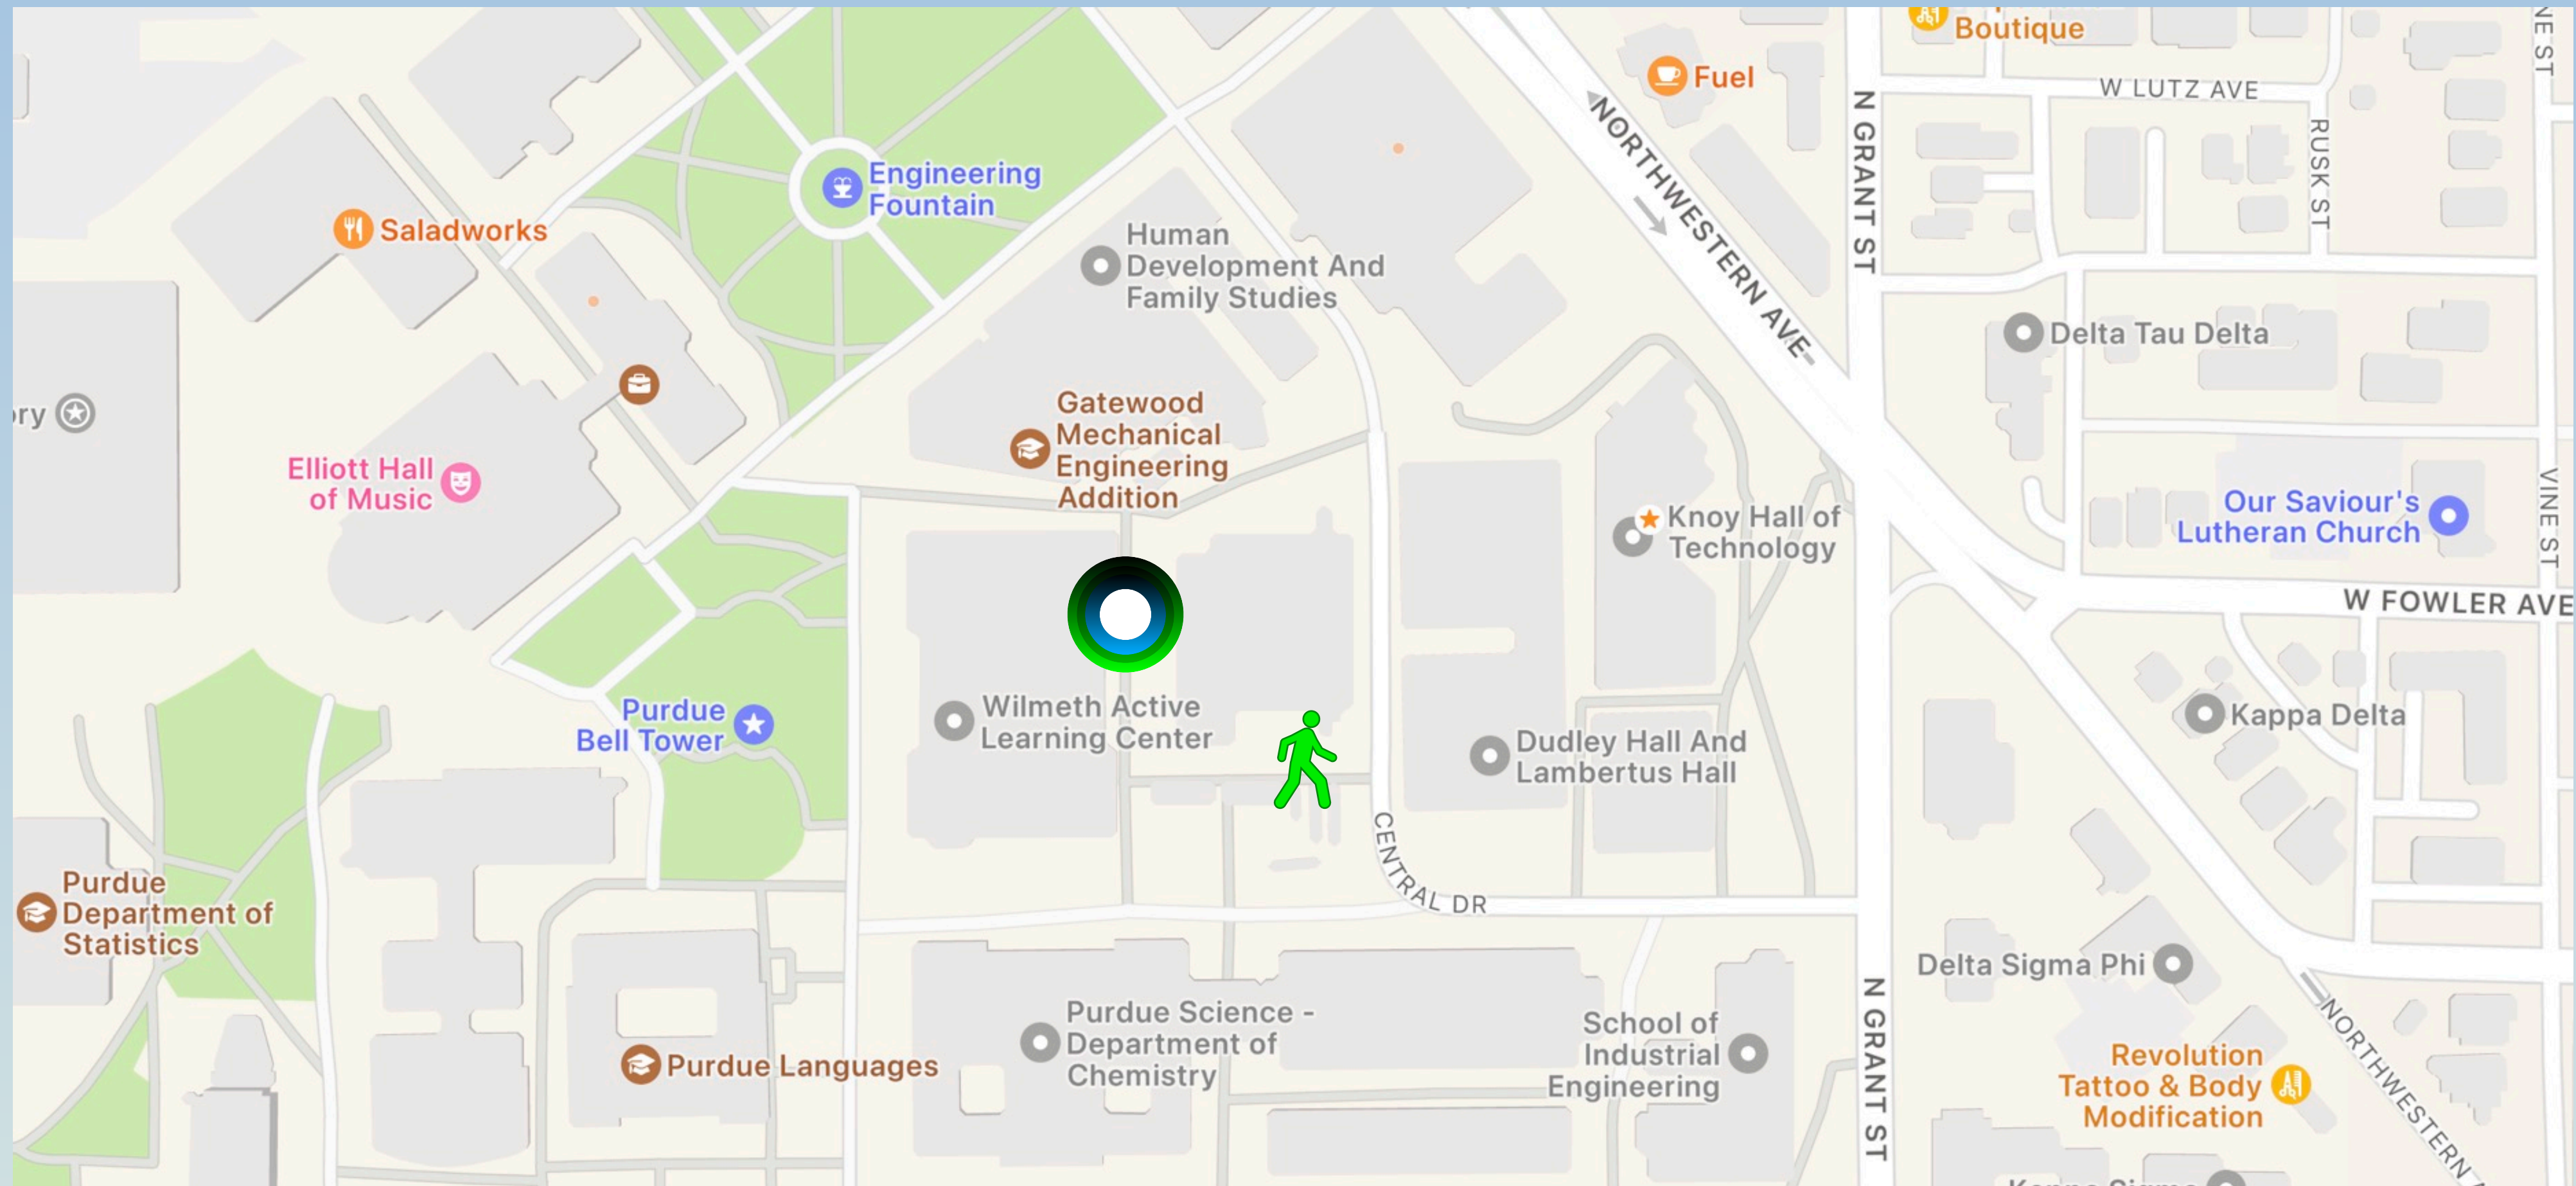

Jonathan C. is requesting a transfer.

- 1x Umbrella
- 1x Rain cover

0.2 miles away
